VACCINATIONS AT HOME

Hepatitis B

A liver infection caused by the hepatitis B virus. It takes 3 doses of vaccine to complete the series for all age groups.

HPV

The Human Papillomavirus vaccine is given to girls generally between the age of 12 & 13 to help protect them against cervical cancer.

H1N1

H1N1 virus or swine flu is a respiratory disorder. For its prevention, 2 doses of vaccine are administered with an interval of 4 weeks.

Flu Vaccine

Influenza vaccines, also known as flu shots protect against flu infection. 1 dose of vaccine is recommended unless specifically instructed.

Other Vaccines

- Measles
- Mumps
- Chicken Pox
- Typhoid
- Rubella
- Hepatitis A
- Herpes Zoster
- Pneumococcus
- Tetanus/ Diptheria
- Meningococcus

90% of adults between ages 20 - 34 years have at least 1 cavity

Consult us now: 9160903444

www.omegahospitals.com

This graphic has a teal background. It features a row of eight white eggs, with the sixth egg from the left being cracked and brown. The text '90% of adults between ages 20 - 34 years have at least 1 cavity' is centered above the eggs. Below the eggs is a white rounded rectangle containing the text 'Consult us now: 9160903444'. The Omega Hospitals logo is in the top right corner, and the website URL 'www.omegahospitals.com' is in the bottom left corner.
