Products:

Mechanical Dock Levelers

These are Manual operation with nearly identical loading heights. Mechanical dock levelers are able to meet most demands and are the most economic solution for situations like uniform fleets, the proper planning of the dock height results in minimal height differences to the loading surface of the vehicles. With a standard rated load of 60 KN, the MLS and MRS mechanical dock levelers. They are simple to operate via a control bar.

SAAYRA'S[®]

LIDOCAINE ROLL ON

Snap into Instant Pain Relief

Saayra's Lidocaine roll on is a no mess, odor free pain relieving liquid which instantly numbs the pain and gives an immediate soothing affect.

INDICATIONS:

- For quick pain relief on joints and muscles.
- Do not allow contact with eyes.
- Do not bandage or apply local heat (heating pad) to areas of use.

DIRECTIONS:

- For adults and children above 12 years: Apply a thin layer on affected area every 6-8 hours, not to exceed three applications in 24 hours.
- Keep out of reach of children and pets.
- If pregnant or breast feeding, ask a professional before use.

BENEFITS:

- No Mess Roll On Liquid
- Relieves Pain
- Effective Treatment For Minor Aches & Pains
- Odorless Formula For Relaxation.

TARGETED RELIEF:

Back Neck & Shoulder

Hand & Wrist

Knee & Elbow

Foot, Ankle & Leg

Research & Development

To catch up with the growing demands of packaging and printing, we help our customers to meet the challenges posed by the end users. To meet this and to enhance and introduce new products, a dedicated PRODUCTION LAB, R&D and APPLICATION LAB equipped with modern and latest equipment is in place at our factory. We interact each others closely with the user, our application team and our technical consultants, partners and collaborators.

EFFECTIVE SOLUTIONS

Our products include a wide range of machines and chemical solutions that can be used for different needs of the customer according to their specification of paper production.

PAPER AND BOARD MACHINES
Ivax offers a complete range of equipment & solutions for paper sizes, strength needs, retention aids, bleaches, deposit control and defibers.

HIGH-SPEED PRINTING MACHINES
At Ivax, our machines are used for modern high-performance printing machines without slip, lining or press brake issues.

CORRIER PAPER
Ivax has extensive experience in producing slip-free papers & converting equipment without paper jams or mixed feed problems.

FILLERS
Ivax products are suitable for common paper making fillers including talc, clay, TiO₂, GCC and ZCC.

GYPSUM BOARD
Ivax offers a system of ASA or optoclar fast size, together with strength & retention aids to meet the requirements of paper grades.

NEWS PRINT
With modern printing machines demanding higher paper quality Ivax cares in terms of reducing Jm, improved dimensional stability & fewer breaks.

PULP
Ivax offers a full range of pulps including all types of chemical wood pulps, de-ink, mechanical & agglomerated fibres.

INKJET PRINTING
Ivax has specialty internal and surface size treatments to meet the demands of newer inkjet paper printing requirements.

SECURITY PAPER
Ivax internal & surface treatment systems perform well in the complex systems used for special requirements of security papers.

LIQUID PACKAGING
Ivax AKD, Cationic resin sizes combined with our strength, retention & biocide systems can meet the unique requirements of the liquid packaging papers segment.

HIGH-QUALITY PRINTING AND PACKAGING
Duplex basic grades and MG machines have special chemical needs which are met with low retention resin or a combination with ASA, in addition to strength resins, retention polymers and process aids.

A WALK THROUGH

Ivax is an ultimate solution provider for all chemical requirements of a papermaker with its three manufacturing facilities in India and one in Thailand. Majority of the products manufactured by us are used in the wet-end section of papermaking.

We have an experienced in-house team to build, assemble and manufacture automated dosing and feed systems. Our global presence is spread across Bangladesh, Nepal, Pakistan, Thailand, Vietnam, Philippines, Malaysia, Indonesia, UAE, Saudi Arabia, South Africa, parts of Europe, Latin America, and Russia etc with satisfying customer experiences. From supplying and shipping quality products in our dedicated tankers to providing 24x7 onsite technical support along with cost-effective solutions, we make everything possible for you!

BREAKTHROUGH

- 1988** Established Ivax Paper Chemicals in an industrial town called Kankal, near Hyderabad, India.
- 1995** First of its kind to produce AKD emulsions in India.
- 2000** First of its kind and only one to produce ASA in Asia.
- 2006** New manufacturing facility in Prachinburi, Thailand for growing markets in South East Asia.
- 2007** Manufacturing facility in Kothua, for growing markets in J&K.
- 2008** Manufacturing facility in Koval, Tamil Nadu to cater to growing market in South India.
- 2015** State-of-the-art manufacturing facility in Kandy, Andhra Pradesh.
- 2016** Launched advanced range of Surface Sizing products.
- 2020** Upcoming manufacturing facility at St. Petersburg, Russia in association with AVERS.

MISSION & VISION

We aim at empowering our customers with environmentally sustainable and cost-effective solutions to make paper come alive, by providing chemical solutions for papermaking. Ivax commits to work centering our philosophy on making a sustainable impact to our customers, society, environment and stakeholders for effective use of our products.

PRODUCTS

Majority of the products manufactured by us are used in the wet-end section of paper-making. Our products include:

FOR INTERNAL SIZING

- Alkaline Size System - with ASA/AKD
- Binary Size System
- Neutral Size System with Catalysts/Enzymes/Resin Emulsion
- Acid Size System - Surface Sizing

CONTROL & CLEANING SYSTEMS

- Microbicides - Antifoaming and Dewatering Agents
- Bleach Chemicals - Wire Passivation
- Continuous, Batch Felt and Wire Clearing Chemicals
- Deposit Control Programs

FOR RETENTION AND DRAINAGE

- Single Polymer System - Dual Polymer System
- Microsorbable System
- Benzamide System

FOR INCREASING ASH

- FLASH

UNIT CONTROL

- Starch Based Biodegradable Polymers

FEED SYSTEMS

Ivax offers a complete range of make-down and feed systems for dosing chemicals and to optimize performance. Our systems are manufactured at our state-of-the-art plant near Visakhapatnam, India.

Each component of the feed is carefully selected and put together by a group of expert engineers and then tested many times before it is sent to our customers. The feed of automation is customized according to the demands of our customers. We maintain spares of all equipment through OEM arrangements with leading suppliers of pumps, blowers, etc. so that our customers have no hassle in case of a break-down in our feeds.

SERVICES

Technical Support

We have a team of global technical experts with specialization in sizing, retention and drainage, biocides and deposit control programs. These technical experts are available 24 hours of the day throughout the year and are just a phone call away. Our chemical make-down and feed systems are available either for use with our chemicals or for outright sale.

Technical Services

On-demand, a detailed plant survey and tests are carried out at the customer's location to select suitable products and thereafter complete technical support is also provided during the plant trial.

Ivax offers technical services for:

- Cost reduction
- Improving quality
- Improving productivity
- Troubleshooting
- Developing customized products/solutions

MADE TO ORDER

We understand the importance of trouble-free operation with minimum down time for our customers and hence we provide the best systems mounted on a skid, so they have minimum operating hassles and are aware of exactly what is going into their system and how. We have a team of expert engineers who can design and develop any kind of equipment to meet the demands of our customers. We even custom make systems for any specific or special applications.

We have equipment readily available for:

- Online ASA emulsification and dosage, with or without micro-solids. Completely automated or semi-automated.
- Liquid & Dry Polymer make-down and dosing systems with online dilution facility.
- Single and Duplex dosing units with or without online dilution for various dosing applications. These can be used with most liquid products, can be customized for special needs and applications.
- Polymer dilution & benzoate make-down units.

RESEARCH & DEVELOPMENT

With renewed focus on environment across the globe, end-users are becoming more conscious of the paper they are using. A responsible care company, Ivax is committed to continual improvement in its products. To achieve this we have set up a state-of-the-art Research & Innovation Lab at our Kandy facility. Our team of Lab Chemists, Application Experts & Microbiologists are fully equipped with the latest instruments to facilitate new product development and greener innovations in our existing range.

the future of logistics now

**LOGI
STIKS**TM

simplified

www.logistiks.com

3RD PARTY LOGISTICS

The advertisement features a dark background with a repeating pattern of binary code (0s and 1s). On the left side, there is a vertical stack of icons representing various logistics services: a yellow truck, a yellow train, a yellow airplane, a blue warehouse, a stack of cardboard boxes, a red forklift, a circular logo with the text '3RD PARTY LOGISTICS', and a red house with a green truck. On the right side, there is a vertical stack of seven circular headshots of diverse individuals. A network of colorful lines (yellow, blue, green, red, purple) connects the icons on the left to the headshots on the right, suggesting a global or multi-personnel network. The central text 'LOGI STIKS' is in large, bold, red letters, with 'TM' in smaller red letters to the right. Below it, the word 'simplified' is in white lowercase letters. At the bottom, the website 'www.logistiks.com' is written in red lowercase letters. Above the main title, the phrase 'the future of logistics now' is written in white lowercase letters.
